**UKONΣ** SIGMA™

---

Detox, energize and strengthen your body with  
the Kangen UKONΣ turmeric supplements.

Ukon™ (wild turmeric) has been recognized for centuries as a natural healer.

It has been known since the era of the Ryukyu Dynasty as a strong antioxidant, and India's ancient medicine (Ayurveda) has used turmeric as an analgesic, antibacterial, anti-inflammatory, anti-allergic, and antioxidant for over 6,000 years.

This is such a powerful tool and part of the Enagic health system.

Combined with drinking the water from your K8 and showering in the Anespa, you have the winning trifecta with the Ukon.

Check out this video on how the UKON is made.

### **GROWN IN JAPAN**

The area where Enagic's Kangen Ukon™ is grown is known as Yanbaru (the northern tip of the island of Okinawa). Yanbaru is often referred to as "nature's treasure" (shizen no takara) in Japanese. The Spring Ukon (harvested exclusively for Enagic) is grown on dedicated farms in Yanbaru and is 100% free of harmful chemicals used in lower-quality, conventional turmeric farming.

### **100% PLANT BASED**

Only Enagic's Kangen Ukon™ contains the essential oils of Okinawan Ukon. Every ingredient is 100% plant-based, vegetarian-friendly, with absolutely no usage of animal products in any way.

### **USING KANGEN WATER®**

Spring Ukon and Autumn Ukon are cleansed and sanitized by Strong Kangen Water® and Strong Acidic Water at our Enagic Ukon Factory. This is the first supplement ever produced by combining curcumin, Kangen Water® and 100% additive-free Spring Ukon essential oils.

### **PATENTED SOFTGEL**

Our patented, 100% plant-based softgel Kangen Ukon™ capsule is made complete with antioxidant ingredients such as olive oil, perilla oil, flaxseed and tocotrienol. In addition, carrageenan, a seaweed derivative, is used as an ingredient for the coating of the capsule.

# INGREDIENTS

## Curcumin

Free radical scavenger and antioxidant

## Healthy minerals

Such as calcium, potassium, magnesium, iron, zinc, manganese, phosphorus, and selenium

## Olive Oil

Helps maintain healthy levels of low-density lipoprotein (LDL)
